# ABOUT LEVEL MEDIA

What happens when designers, developers, and marketing professionals of all stripes gather under one roof with a white board, a bunch of Macs, and an endless supply of coffee? Amazing things happen.

Just ask some of the world's biggest gaming brands. Wynn. Hard Rock. Virgin. Mohegan Sun. Pechanga. And all the others we've helped bring to life in the iGaming space.

Or the many brands we've helped in other verticals, like hospitality, finance, consumer services, delivery, e-commerce, and more.

Our services are limited only by your imagination. Strategy. Branding. Web design. App design. Animation. 3D modeling. Video production. Marketing collateral. Direct response. Programmatic media buying. PPC. SEO. OOH. And all the best acronyms. We do what it takes to help your brand.

Since 2006, we've helped a world of brands come to life and become powerhouses in their own market and beyond. And we're just getting started.

# ELEVATE, THEN DOMINATE.

Extraordinary things happen when you put the sharpest, most creative minds in iGaming in your corner.

Whether you're jumping into the online gaming space for the first time or you're one of America's most storied gaming brands, Level Media has a plan to help you thrive and conquer.

# WE ARE ALL IN ON YOUR BUSINESS

We eat, sleep, and breathe digital marketing. And we understand online casino, online poker, and sports betting better than anyone else. Our team has the breadth of experience to help your brand excel in any market. From strategy to final design and execution, we're your partner in growth and market domination.

# SHALL WE CHAT?

We'd love to learn more about you and your business. So feel free to get in touch and let's make some magic together.

# MEET OUT HAPPY CLIENTS

We've helped some of the world's best-known brands enter the iGaming space and pave a path to success. And some non-gaming brands too. We could on and on, but we'll let the logos do the talking.

# SAMPLE WORK

Over the past several years we have serviced dozens of iGaming companies as well as several leading brick and mortar casinos, racetracks, hotels and entertainment complexes.

What follows are some examples of our most relevant recent work:

Our many contributions to Hard Rock Casino have included the production of numerous digital marketing assets and enhancements to various portions of the web interface. Our work has consisted of animated videos as well as static creatives for paid social campaigns, UI/UX improvements and updates for the online live slots offering, as well as custom landing pages designed to direct users to Hard Rock Casino and Hard Rock Sportsbook. We are extremely proud and honored to have helped promote Hard Rock's iGaming offering and acquisition efforts in the state of New Jersey and beyond.

# BEAT THE Boss

Level Media was tasked with developing branding and producing numerous creative assets based on BGO's core acquisition messaging. After creating the initial "Beat The Boss" logo, centered around the fictional character played by BGO's spokesperson, Verne Troyer, we built multiple onsite and direct marketing assets, many of which featured celebrities such as Dan Bilzerian and Paris Hilton. These include the following:

- ▶ Carousel banners
- ▶ Email/CRM creative
- ▶ Print pieces
- ▶ Football stadium advertising
- ▶ Facebook ad materials

BANGKOK — Several Thai government protesters were wounded after gunmen opened fire on a rally in Bangkok, authorities said on Saturday, under pressure on the caretaker government ahead of a planned city-wide "shutdown".

The kingdom is the grip of a political crisis that has led to parliament being dissolved, with demonstrators holding mass protests aimed at toppling Prime Minister Yingluck Shinawatra and ending the influence of her wildly divisive brother on Thai politics.

One protester was seriously wounded after unknown gunmen fired at the protesters' main rally site in two separate attacks early on Saturday, Thai police said.

The first attack occurred at 2.30am wounding two people, including a protest security guard. The second took place a few hours later wounding five protesters, said Police Lieutenant General Prawit Thawornwatt of the Royal Thai Police. The toll was confirmed

WASHINGTON — A U.S.-based children's charity has asked the Philippines to investigate the mysterious disappearance of child workers for use in Japan's offshore call centers.

The international child labor movement said the high-profile disappearance of a young girl from the Philippines was a "wake-up call" for the government to investigate the issue.

"She said 'hundreds' of women from Sarawak have worked in working in the red light district of the nearby city of Singapore since 2008, when their transportation began a long on the street. While the process would be the five girls' identities were obscured to protect their privacy, the women were aware of the risks involved in working in the red light district of Singapore, she said.

## Casino • Hotel

After completely redesigning the website for Atlantic City's Resort's Casino complex, Level Media was subsequently tasked with building all the launch creative and post-launch promotional materials for ResortsCasino.com, which has since become the fourth largest regulated online gaming portal in the state of New Jersey.

After becoming the agency of record for Resorts, our work over the following Two-year period included a wide variety of tasks. We were responsible for branding and developing promotional campaigns, producing website creative, designing, coding and testing email templates; making artwork for billboards, on-property signage, slot machine toppers, column wrappers, promotional swag and trade show booths, as well creating a unique concept for an on-property iGaming lounge intended to entice crossover bricks and mortar casino clientele into online gaming.

HOTEL CASINO & SPA

Having expanded its role from a high end Atlantic City boardwalk casino to a major player in the New Jersey iGaming space, Borgata sought out Level Media to develop design assets and creative for their main summer campaign, centering around summer promotions. The work included micro-site creation, logo design as well as a full set of promotional assets and messaging. This was one of the first of a series of projects that we completed in the New Jersey iGaming market.

## RESORT CASINO

When one of the country's most successful brick and mortar tribal casinos decided to delve into the world of social gaming, they sought the expertise of our seasoned and reputable Level Media CEO, Will Griffiths. After helping them develop their strategy, Will brought in his own agency to do much of the creative and design work for Pechanga's mobile social gaming app, a product which Level Media continues to support to this day.

Play Ojo wanted to use motion graphics to highlight the features of their mobile application. Because we had experience creating mobile app videos for other clients, such as [ResortsCasino.com](http://ResortsCasino.com) and [BGO.com](http://BGO.com), we were more than ready to take on this task. We created different iterations of this material, suitable for various screen resolutions.

# Bankrate™

As one of the largest mortgage and loan comparison sites in the United States, bankrate.com is up against stiff competition from major corporate players such as lendingtree.com. In order to reach more customers, they needed an agency that could improve on their existing interactive HTML 5 based promotional assets, and also take on the task of integrating their API data directly into feeds that could be used to dynamically display rate information through Google Doubleclick. We were able to custom script API middleware, configure doubleclick to accept the required data, and produce placements that have since produced excellent conversions. We continue to create new iterations, build new ad concepts and diversify the types of digital media being served.

When one of America's leading small business lenders came to us to help fuel their digital acquisition efforts, the objective was clear: to create engaging marketing assets focused on boosting social engagement and increasing sales. Our target audience consisted of the businesses owners themselves, and our mission was to tell compelling stories about how financing could help them grow through engaging testimonials. We built a wide variety of programmatic and social media marketing assets that featured celebrity spokesperson Barbara Corcoran as well as numerous OnDeck clients, whose stories and words we used to create stunning, clean creative assets that conveyed the company's unique selling propositions.

# RAISED REAL®

Raised Real wanted to shake up their paid social acquisition efforts by enlisting the help of an experienced digital agency. We worked closely with them to use influencer based video assets in conjunction with colorful imagery of their unique product and compelling messaging in order to create conversion oriented facebook and instagram assets. Our main goal has been to communicate the uniqueness and key value propositions of their varied offering, when compared to traditional baby food products.

# MEGA VEGAS

MegaVegas is a revolutionary predictive online slots platform that features a “see before pay” mechanic. Although it is not a gambling product, MegaVegas targets the same demographic as both online casinos as well as traditional social gaming apps. Recently launched in Canada, the real-money app offers players access to an extensive portfolio of engaging, original virtual slots games. Level Media was responsible for branding, marketing materials and application design, as well as designing and animating many of the slots games from start to finish. As CEO of Mega Vegas, Will oversees the entire company’s operations.

Underneath this line, the words "SPORTS TECH" are written in a smaller, white, italicized sans-serif font.

# **DIGITAL** SPORTS TECH

While most online sportsbooks have traditionally offered pre-game wagering, the advent of live in game odds has opened up the market to wealth of wagering opportunities. Digital Sports Tech is a cutting edge, plug and play technology that allows online sports betting companies worldwide to offer a host of in-play propositional odds for major U.S. leagues and events. Level Media has been responsible for designing numerous online and offline b2b marketing materials, including digital brochures, onsite assets and landing pages.
